

Technical Service - East England

Due to an increase in demand, the GRIMME UK aftersales team are currently seeking to hire a experienced **Technical Service Engineer** to support our dealers in the East of England. This rewarding position would ideally suit an experienced technician wishing to progress their career within a market leading machinery manufacturer. In return GRIMME offers an excellent salary, a pension scheme that pays over the industry average, personal iPhone & iPad, company vehicle, medical insurance and the opportunities to progress within a dynamic organisation. Knowledge within the root crop industry would be advantageous, however full product training will be provided. Ideally you should be located in the East of England, however the location can be flexible for the right candidate.

Initial Responsibilities:

- Telephone and In field support of service engineers during season.
- Support with new machinery installation on farm and infield.
- Work alongside the service team in the GRIMME factory for technical enquires.
- Assist with technical training for dealers and customers.
- Become the product specialist for one of the many machines GRIMME supply.
- Assist with product development and future R&D projects.
- Mentor and help develop engineers at GRIMME and within the dealer network.

Requirements:

- Industry experience and knowledge of machine hydraulic / electric diagnostics
- Excellent communication skills
- Full UK driving licence
- Ability to work as part of a flexible team delivering industry leading support

Benefits:

- Attractive remuneration package
- 24 days annual holiday
- Company vehicle and excellent pension contribution
