## Give your crop the best start

### Rotary hillers

- > For an intensive cultivation and reduction of clods
- > Shaping board XL for the biggest ridge in the market
- > No run offs with our new "TerraProtect" dyker
- > Heavy duty durable gear box for tractors of up to 500 HP
- > Ridging and planting in one pass

## Create enough room for your crop

### Ridging hillers

- > Different tines for varying soil conditions
- > Single row shapers are suitable to be used after emerging
- > Fast movement between fields due to a folding frame
- > No run offs with our dyker in one pass

## Plant with confidence

### Cup planters

- > Plant with the most sold planting element in North America
- > The cup planting element is the right choice for an accurate and even planting distance
- > Fertilizerbox with banding into ridge for most economical and accurate fertilization
- > Spring loaded tines with shaping board to create the biggest ridges for minimal greening
- > GL 860 Compacta. The 8-row foldable planter for a fast movement between fields

## Planting with high speed, precision and performance

### Belt planter

- > Driving speed of up to 10 km/6 mi per hour for high output
- > Plant all sizes the most accurate way
- > Two different chassis available to combine the various options
- > Shaping board XL for the biggest ridges
