

1660 RH Filler

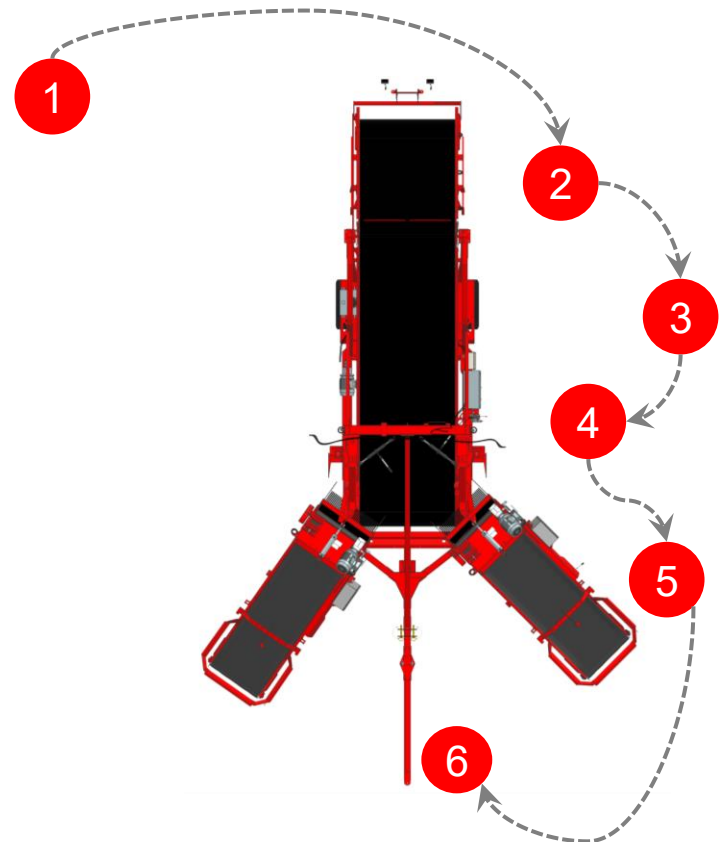

Walk around | 2026

SPUDNIK

Explanation of the walk around

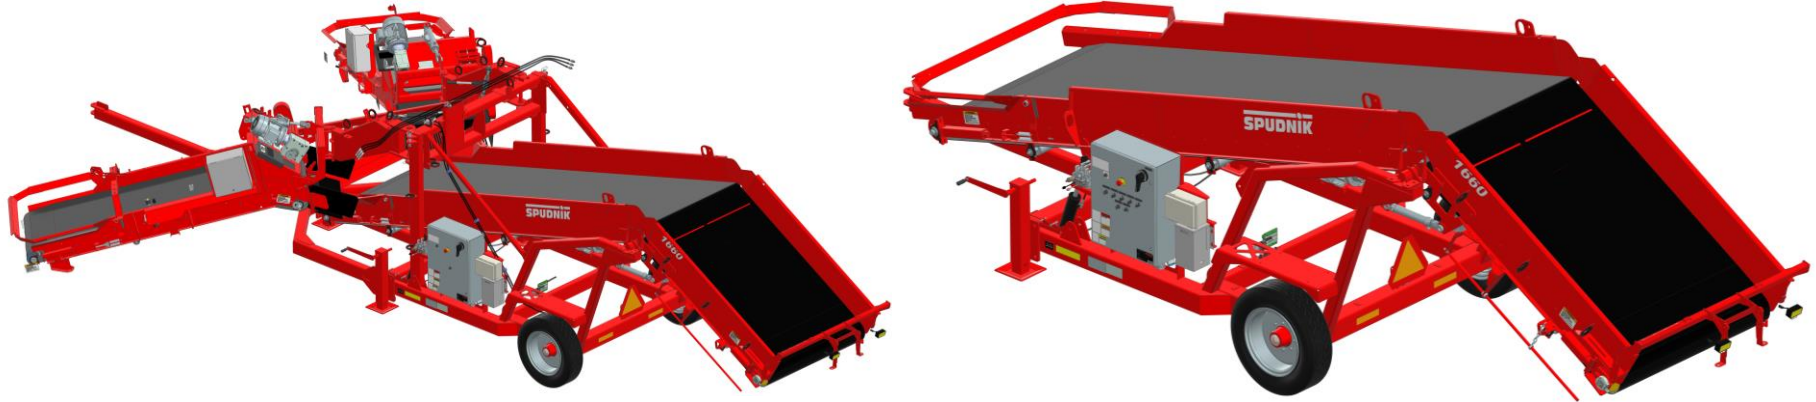

This document “Walk around 1660 RH Filler” was developed to help you to introduce this conveyor at trade fairs, field demonstrations, or in sales discussions, and to showcase distinguishing features!

- 1 Concept
- 2 Elevator
- 3 Chassis | Jacks
- 4 Drive System | Controls
- 5 Pups
- 6 Transport

Position 1

Concept

Your benefits:

Mobile collector table for Receiving Hoppers

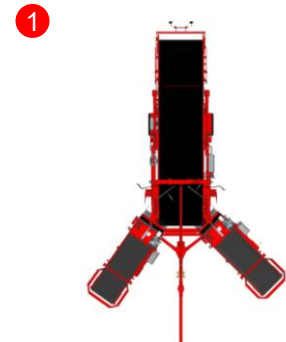

Capacity of up to 200 t/hr- 4000 sacks/hr

1 Trucks can back directly up to the machine or up to 2x 2400 Pups.

Machine is easy to handle and can be combined with GRIMME RH or RH Combi.

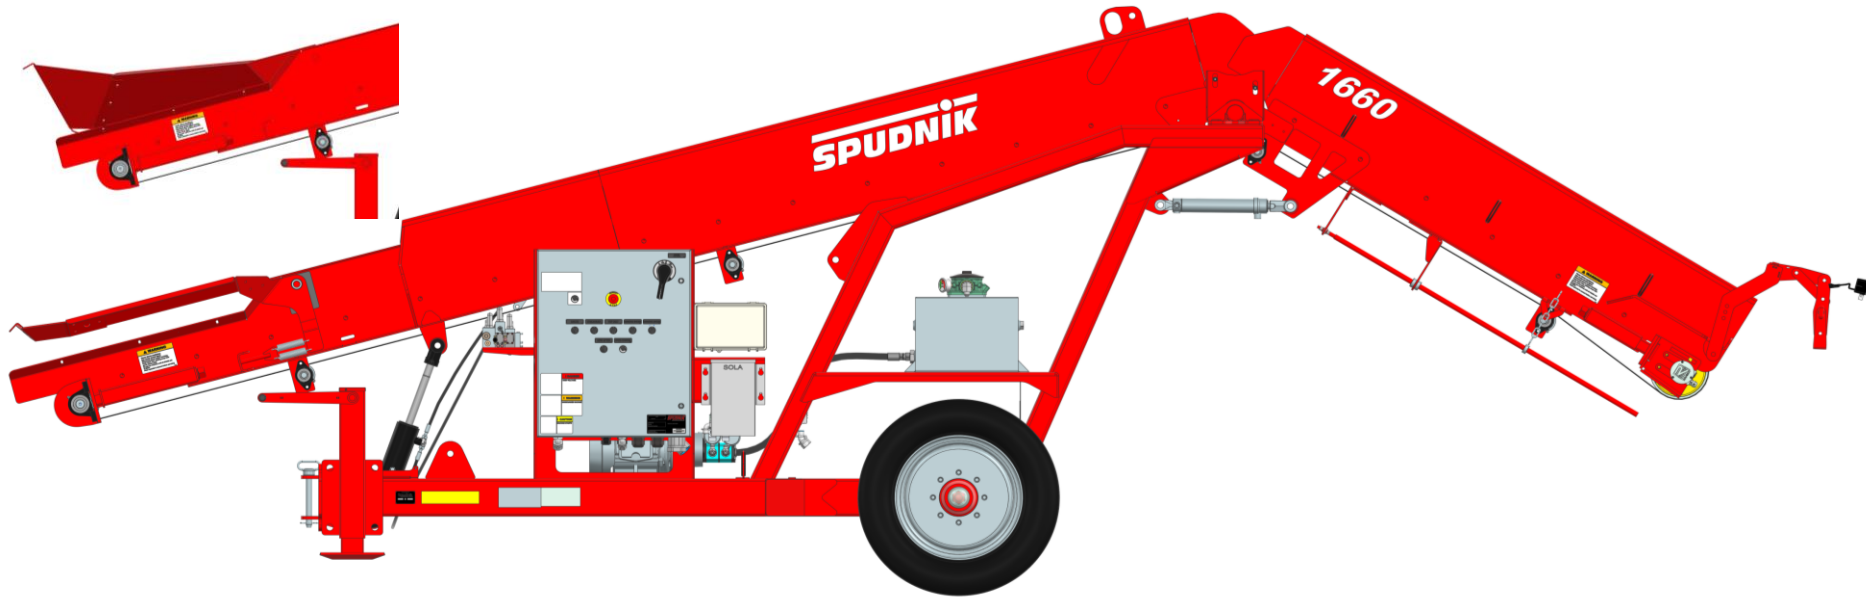

Simple construction leads to a durable and reliable machine

Recommended position:

Position 2

Elevator

Your benefits:

60-inch-wide elevator (150 cm)

Cleated belt to reduce rollback

Electric Variable speed adjustment

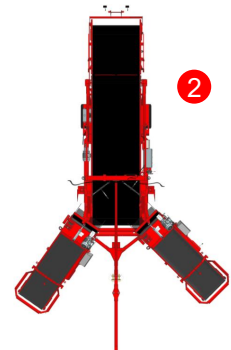

2

Drum motor for increased efficiency and sprocket free drive

Maintenance free drive

Flex Hopper for direct unload. Fixed Hopper for use with pups.

Recommended position:

Position 2

Elevator

Elevator Angle:

Min- 13°

Max-19°

Max
Height:

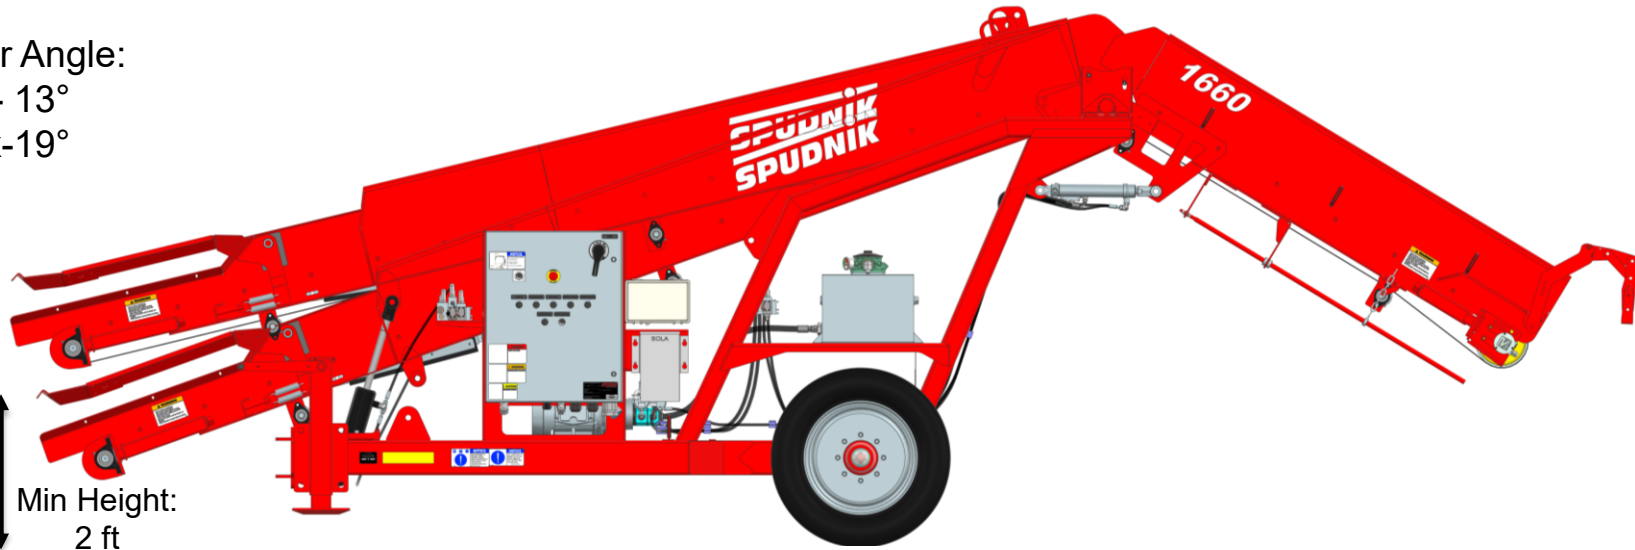

4 Ft

1 M

Min Height:

2 ft

½ M

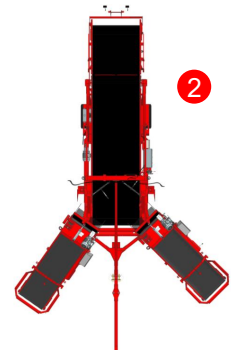

Your benefits:

2

Hydraulic Adjust Hopper to Minimize Drop Height from Bulk Bed

Shallow elevator angle to reduce roll back

Recommended position:

Position 3(No Pups)

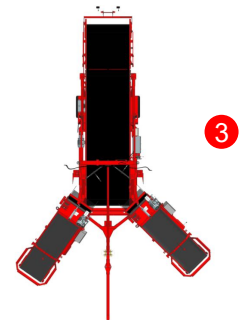

Chassis | Jacks

Your benefits:

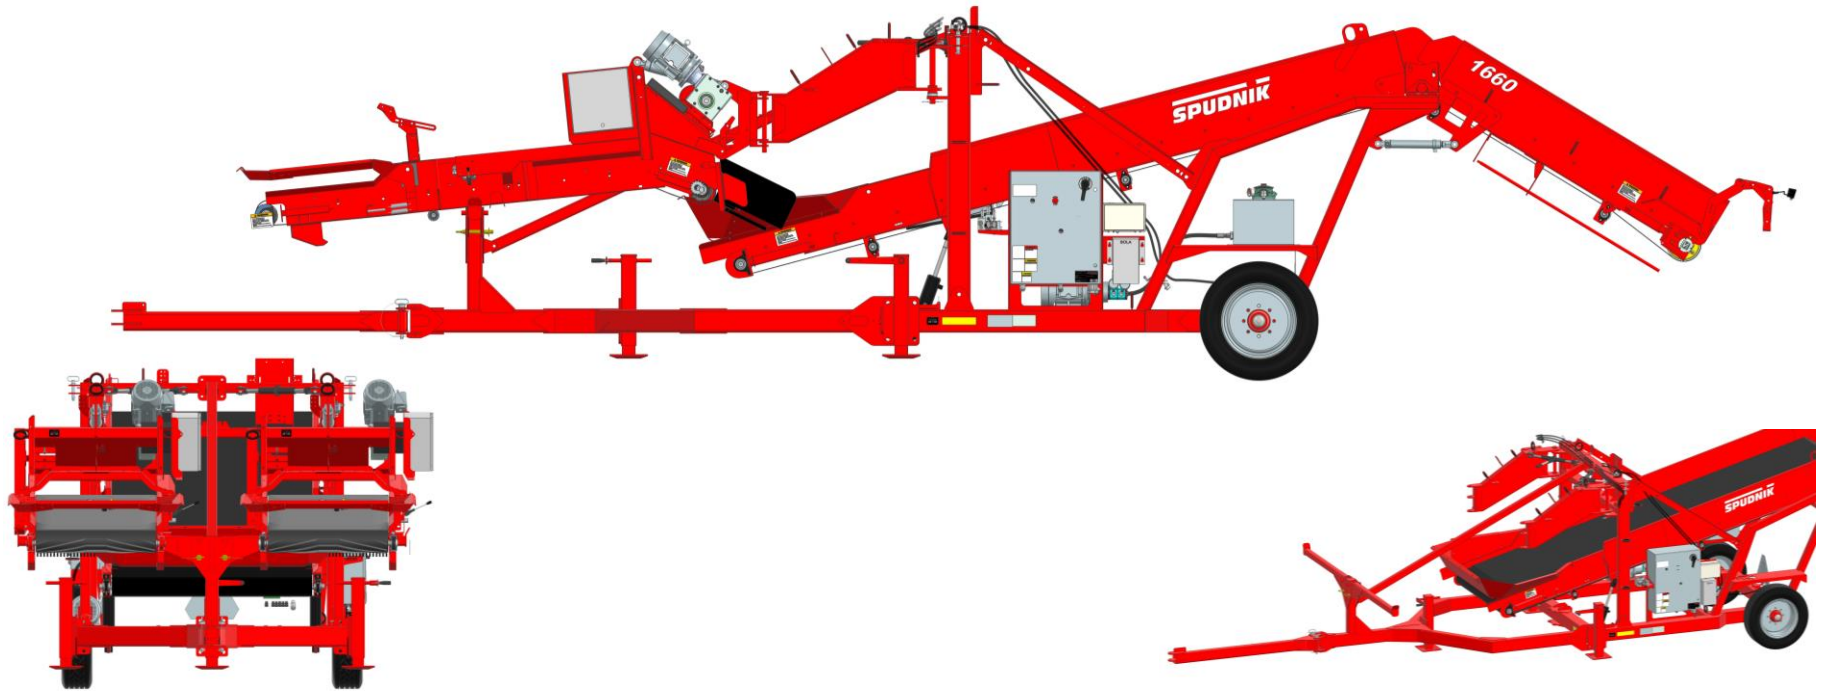

- Equipped with wheels and drawbar to be easily transported
- 3** Drawbar can pivot either direction or be removed
- Mechanical jacks at the intake for easy set up

Recommended position:

Position 3(With Pups)

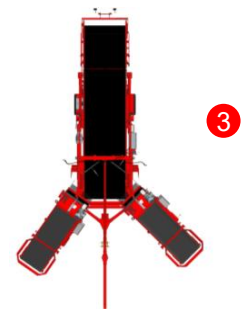

Chassis | Jacks

Your benefits:

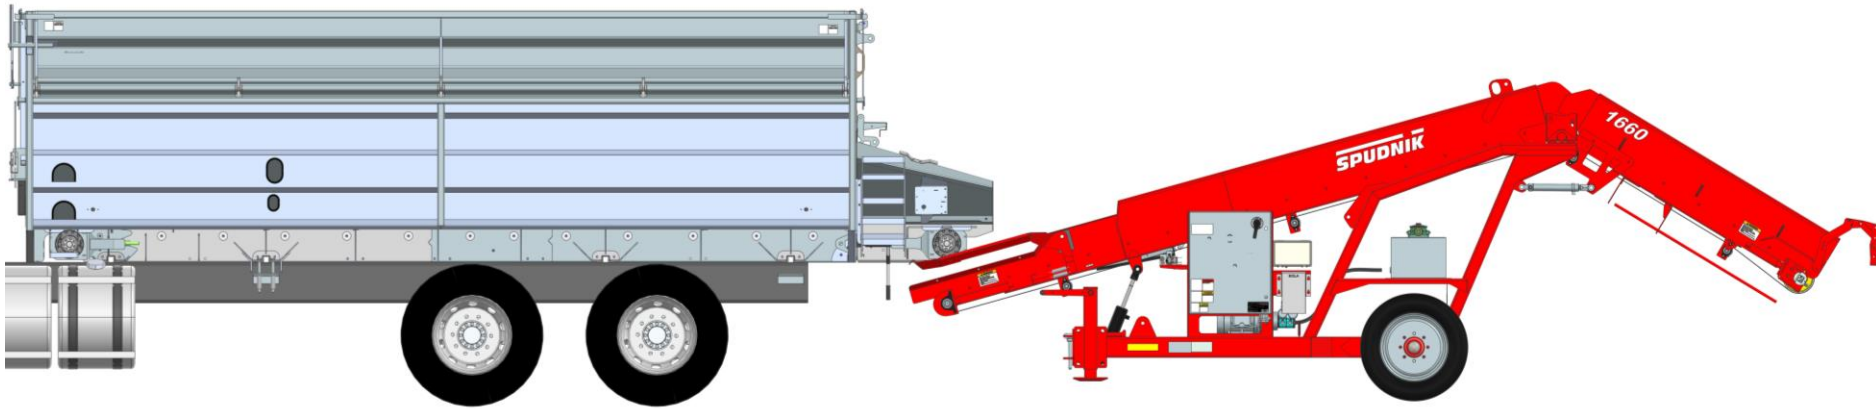

Recommended position:

- Equipped with wheels and drawbar to be easily transported
- Extended frame for stowing pups in front of elevator
- Drawbar can pivot either direction or be removed
- Mechanical jacks at the intake for easy set up
- Removable pup rests
- 951742 Tire – 235/75R17.5 16PLY, Hercules H-902 | Load Rating: 6,000lbs

Position 4

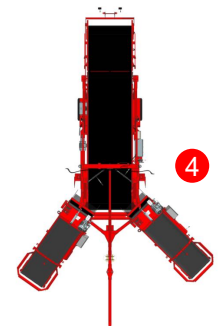

Drive System | Controls

Your benefits:

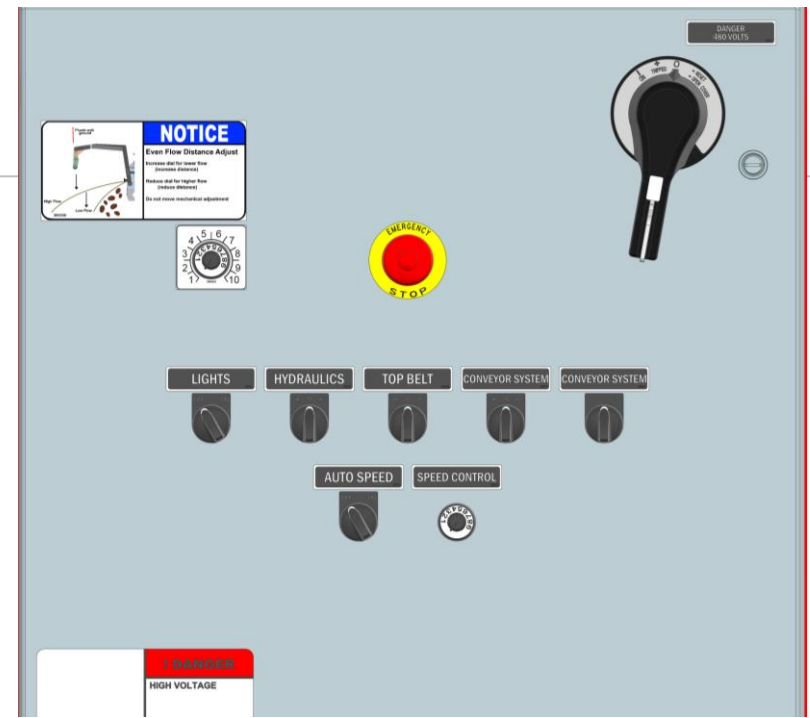

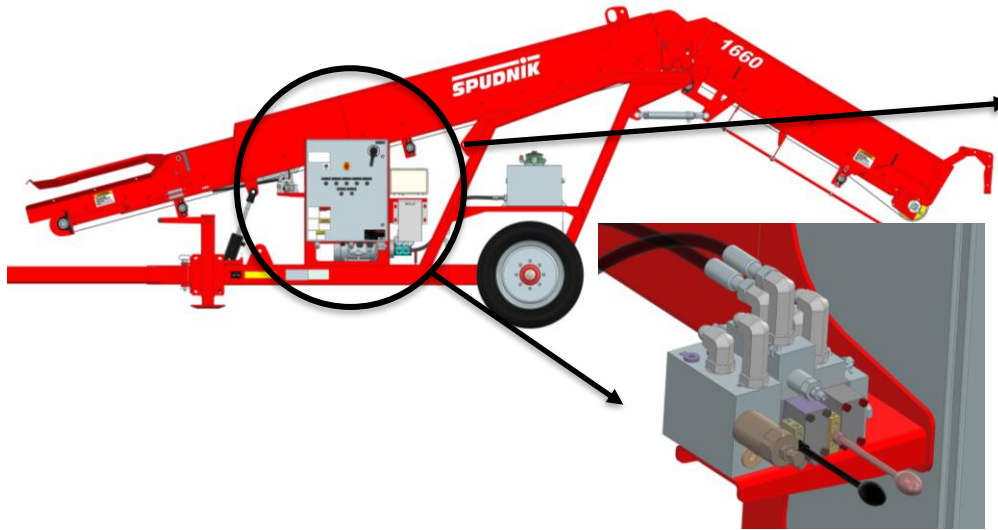

- Convenient control location near hopper
- 480 V and 400 V available
- VFD for variable belt drive
- Ultrasonic sensor on the tip of the elevator for gentle piling
- Infinitely adjustable drop height
- Optional LED lights
- Hydraulic lift hopper
- Controls mounted on outside of frame. No major components under elevator. No dirt build up under machine.

Recommended position:

Position 4

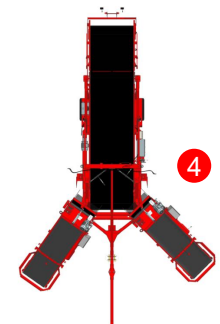

Drive System | Controls

Your benefits:

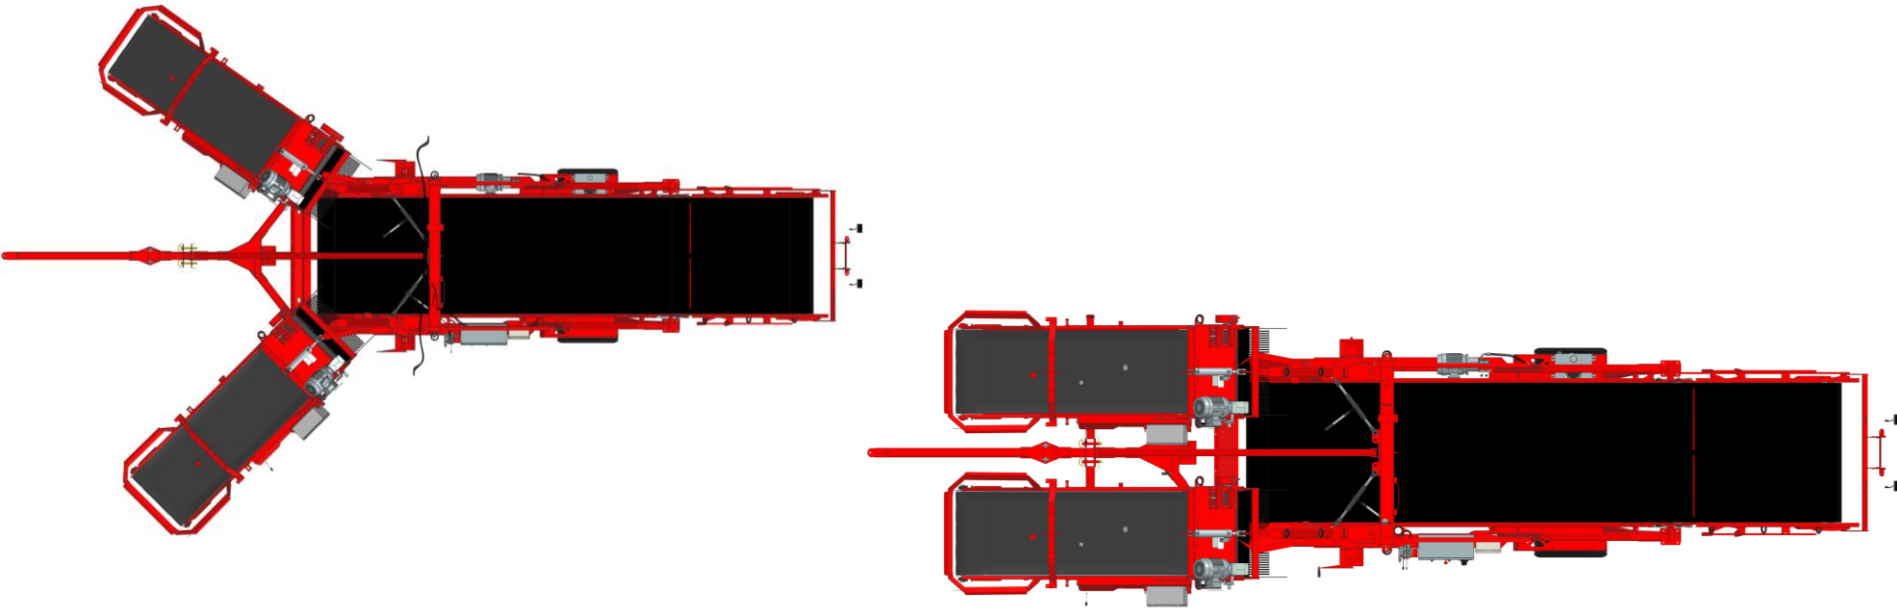

Recommended position:

- Flow Distance Adjustment Dial
- Lights-On/Off-If Equipped
- Hydraulics- On/Off
- Belt- Auto | Off | On
- LH Conveyor System Switch for Interlock- Auto | Off | On
- RH Conveyor System Switch to choose either Spudnik Interlock or Grimme Interlock
- Auto Speed- On/Off
- Belt Speed Adjust
- Manual Hydraulic Hopper Lift/Lower
- Manual Hydraulic Boom Lift/Lower

Position 5

Pups

Your benefits:

Recommended position:

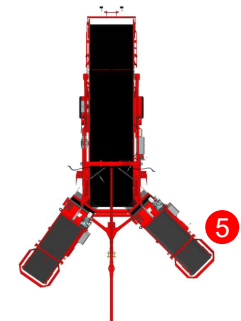

5

Mounting points for up to 2x 2400 Pups

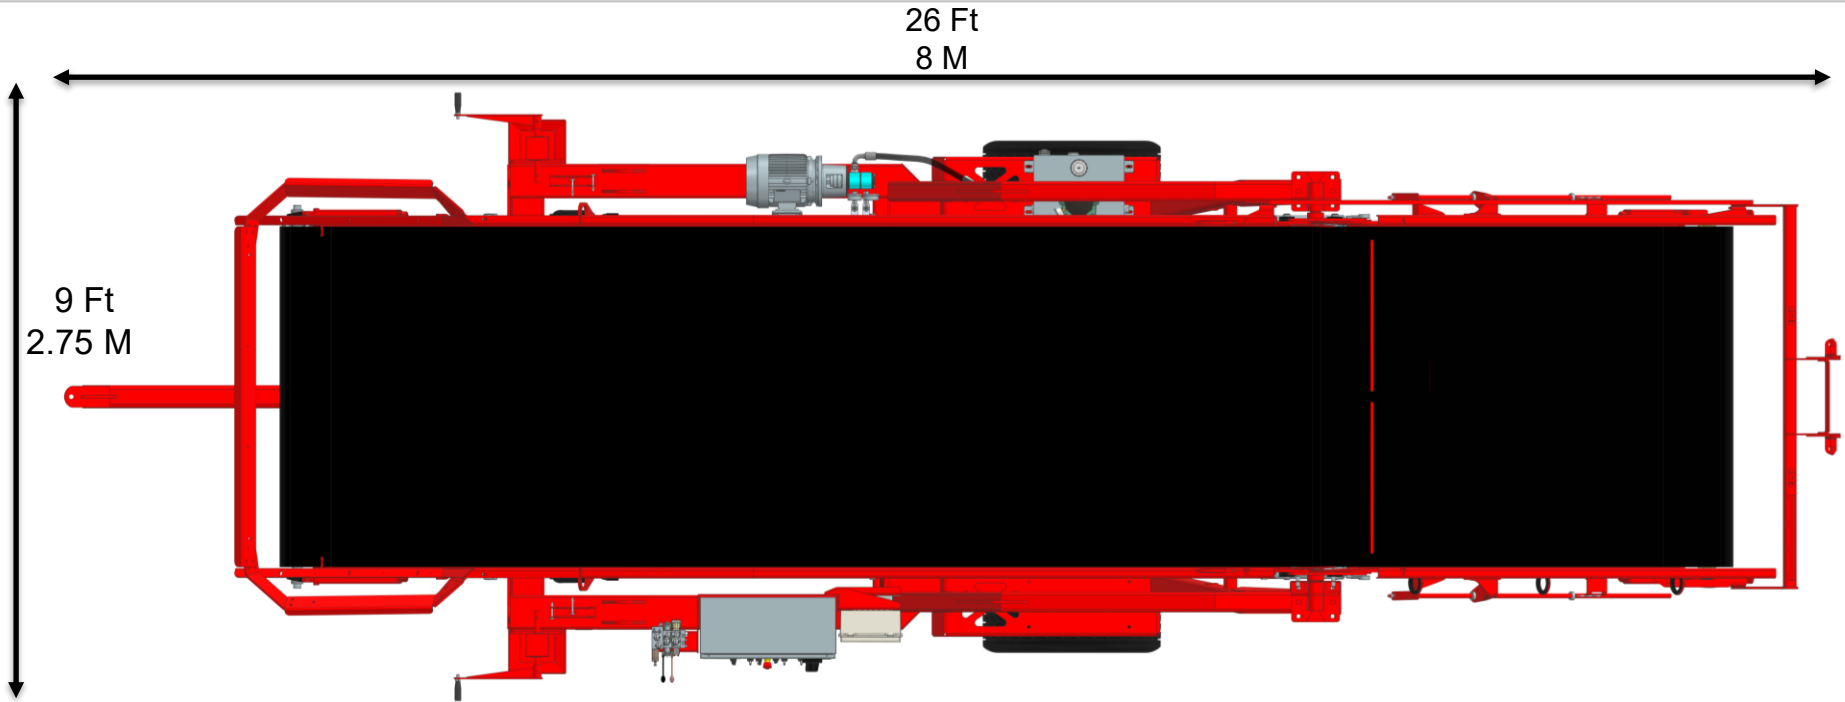

Option for single phase truck power

Removable pup rests for transport of pups

Pups can be independently configured to suite each grower

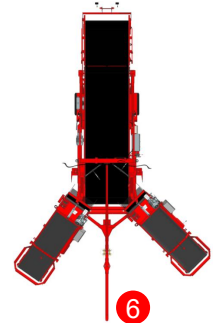

Position 6(No Pups) Transport

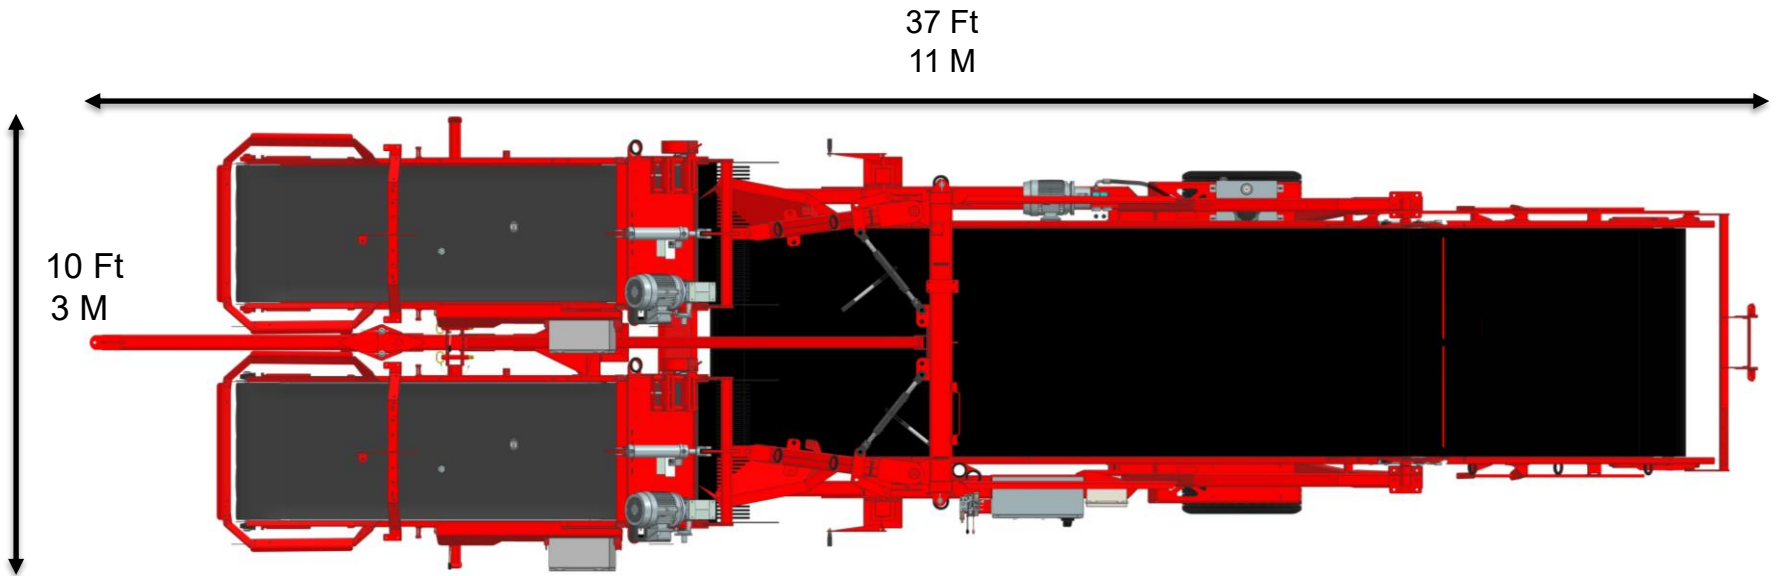

Your benefits:

Recommended position:

6	Machine can be broken down for container transport
	Fits 40' HC Container
	Up to 2 machines per container
	Cylinder stops for keeping hopper in raised position for transport

Position 6(With Pups) Transport

Your benefits:

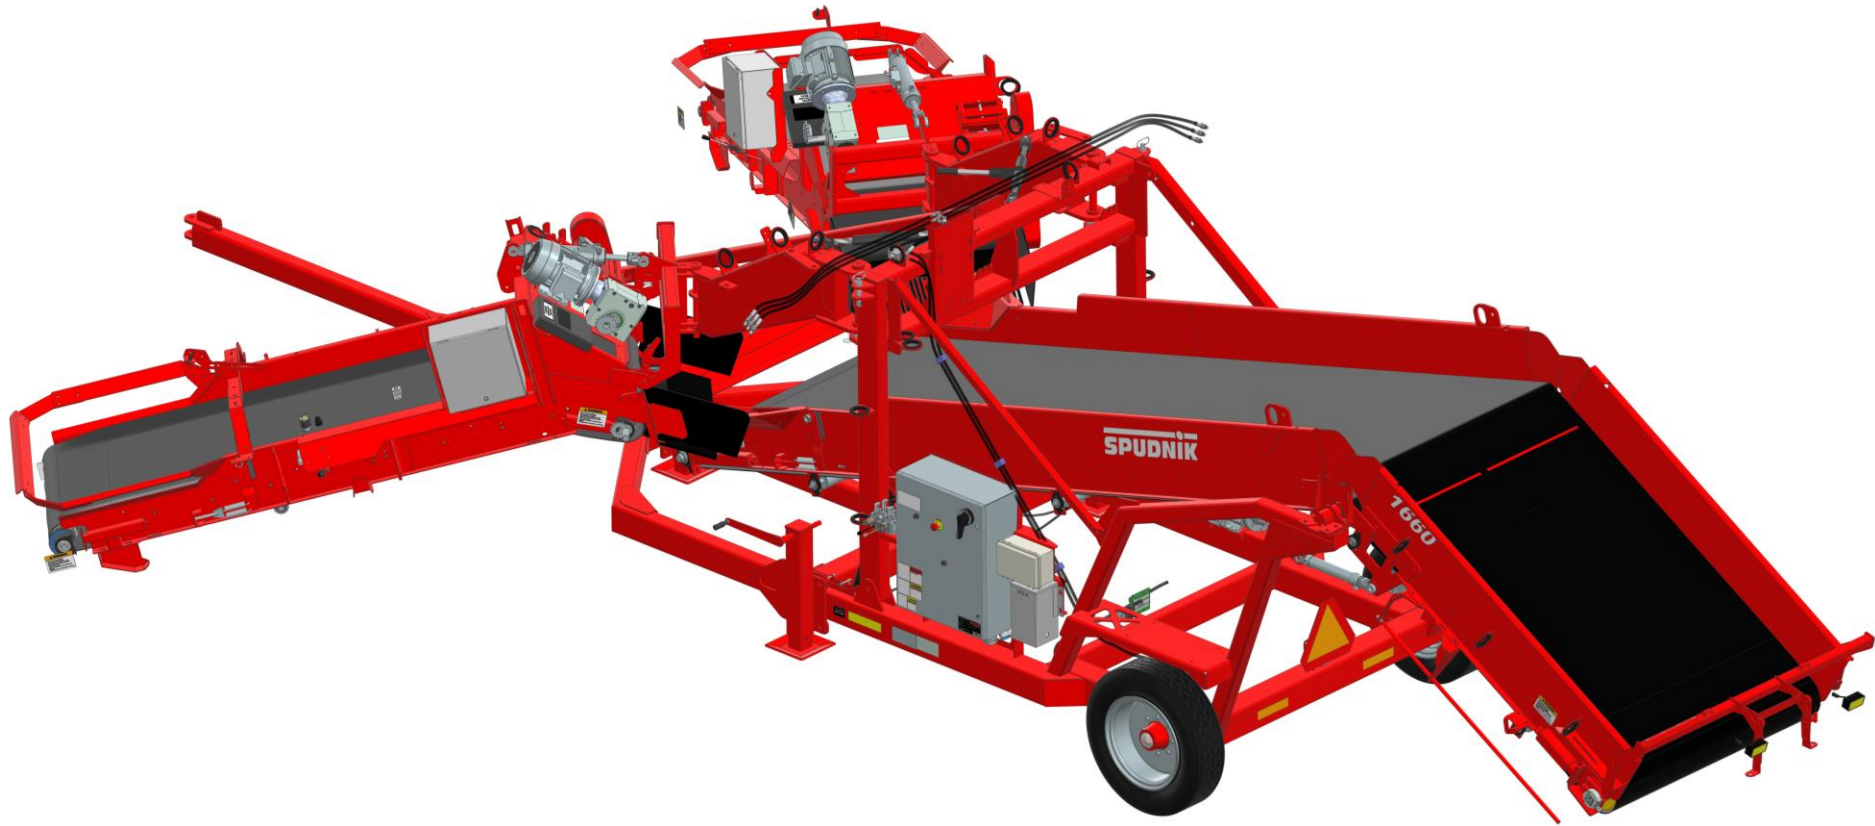

6

- Machine can be broken down for container transport
- Fits 40' HC Container
- Narrow transport width

Recommended position:
